. Punctuation

. Comparisons

[is] greater than ``>``

less than ``<``

greater [than] [or] equal [to] ``>=``

less [than] [or] equal [to] ``<=``

equal to ``==``

(105,200)

. Directions

sauce **up**

dunce **down**

lease **left**

ross **right**

. Editing

clear **bkspc**

deli **del**
shock **enter**
cancel **escape**
save **ctrl - s**

. Selection, Movement

shackle **select line**
shin **shift - <dir>**
queue **ctrl - shift - <dir>**
fly **ctrl - <dir>**
splat **ctrl - del/bkspc**
wally **home/end**
tell sink **end + enter**
tell dock **end + semicolon + enter**
kraken **ctrl + space**
hug <enclose> **encloses target**

. Copy and Paste

stoosh **copy**
cut **cut**
spark **paste**
garb **double-click + copy**
drop **double-click + paste**
duple **duplicate line**

(200,200)

. Text Formatting

Capitalisation

yell **SOME WORDS**
tie **Some Words**
gerrish **someWords**
sing **Some words**
laws **some words**

Spacing

gum | gun **somewords**
spine **some-words**
snake **some_words**
pebble **some.words**
incline **some/words**
dissent | descent **somewords**

Capitalisation and spacing can be combined into a single command. They may be suffixed by "bow" and then dictation to format (ex: "tie snake bow some words") to aid recognition.

. Format Setting

set [big] format <capitalisation> <spacing> [bow]

Oem

Set a standard/[secondary] format

[big] format <dictation> **Apply the standard/[secondary] format to dictation**

. Free Dictation - Engine Formatting

say **default engine formatting**

cop **Initial letter capitalized**

slip **initial letter lowercase**

. Miscellaneous Hardware Control

media [control] **play|pause / next|back**

volume <mode> <n> **up|down / mute|unmute**

(105,200)

. Window Management

minimise win **minimise window**

maximise win **maximise window**

dredge **alt + tab**

switch window **display all windows**

move window **move with arrow keys**

window left **snap window to left**

window right **snap window to right**

show work **show active workspaces**

new work **create a new workspace**

close work **close the current workspace**

close all work **close all workspaces**

previous work **go to the previous workspace**

next work **go to the next workspace**

go work <n> **go to workspace number n**

send work <n> **send the current window to workspace n**

move work <n> **move the current window to workspace n**

. Repetition

again do **repeat last dictation**
again <n> times **repeat last dictation*n**
record from history **open macro recorder**
complete **save macro**
delete recorded macros **delete recorded macros**

. Aliasing

alias <dict> **alias highlighted text**
chain alias <dict> **alias as CCR**
(200, 200)

. Template-based Navigation

jump in **move cursor inside next ({{<**
jump out **move cursor past next }}>**
jump back **move cursor inside prev }}>**
fill <target> **highlight <target> in line**

. Mouse Replacement

kick **left click**
kick mid **middle click**
psychic **right click**
shift right click **shift right click**
shift click **shift click**
squat **left button down**
bench **left button up**
lean **right button down**
hoist **right button up**
colic **control left click**
scree **scroll wheel**
curse **move cursor by pixels**
douglas **move cursor on grid**
rainbow **alternate grid**
legion **smart text selection**
left point **mouse to screen left**
center point **mouse to screen center**
right point **mouse to screen right**

. Dragon

number/spell/dictation/normal/command mode **switch dragon modes**

. Update and Caster Management

caster <mode> **microphone on, off, sleep**
clear caster log **Clears Log Window**
update dragonfly **Updates Dragonfly**
reboot caster **Restarts Caster**
caster settings editor **Caster settings editor**
